

Vacancy **Sack Plant Operator, Rotating shifts.**

A vacancy has arisen within the sack plant operations team.
Rotating shifts 06:00-14:00, 14:00-22:00, 07:00-16:00.

Key tasks and skills required in this role are:-

- 1.0 FLT operations to move stock between production and warehouse, and loading of vehicles.
- 2.0 Operation of the malt handling, bagging and crushing plant equipment.
- 3.0 Use of site stock control label and scanning PDA system.
- 4.0 Completion of production records, reporting maintenance and safety issues.
- 5.0 Hygiene duties, aiding production departments as required.
- 6.0 Any other duties allocated by your line manager.

The ideal candidate will be able to work equally effectively in a team environment and on their own, will have good communication skills, be capable of taking responsibility for their work area and production requirements, good attention to detail and the ability to work under pressure to ensure process timings and quality requirements are met. Experience working shifts within a production role would be preferable. FLT certificate not essential as training will be given. Applicants must be physically fit due to the level of manual operations required in this role.

This vacancy may also be advertised externally.

Previous applicants need not apply.
